

## Juvenile Corrections Center–Lewiston Adopts Trail

Juvenile Corrections Center–Lewiston, in cooperation with the Army Corps of Engineers at Dworshak, has adopted the ten-mile Big Eddy to Freeman Creek Trail at Dworshak Reservoir. After months of developing a cooperative agreement, the project finally came to fruition with eight juveniles beginning work on the trail in April. The group successfully cleared approximately three miles of trail on their first time out. JCC–Lewiston is projected to complete the ten-mile project sometime during the summer and will then be responsible for general maintenance of the trail on a yearly basis.
